

**List of Business Activities for “Developing Configuration Tables”****Functions:** Project design & engineering**Processes Codes:** SV77, SV78, SV79 in Annex 20C**Sourced from:** Chapter 5, Annex 1A,1B,1C,1F &1G for Fields, Annex 24E**Responsibility: Relevant Functional Head** In consultation with CFO & Head-IT

<b>Activities for “Developing Configuration Tables”</b>	
<b>Function: Designing of Architecture, Process Code: SV77</b>	
<b>List of Activities</b>	<b>Proposed Code</b>
Identifying key “Configuration Tables” relevant for this function. The author has identified one configuration table as per details given in 24E	AV601
Assigning a unique “table number” as CT211 for the identified table. The number of configuration tables can be increased to 10 from <b>CT211 to CT220</b> .	AV602
Identifying fields applicable to each of the above tables. one unique example of the field is as below: <ul style="list-style-type: none"> <li>Type of Civil package</li> </ul>	AV603
Identifying “Field code”: <ul style="list-style-type: none"> <li>F501 for Types of Civil package</li> </ul>	AV604
Identifying various “choices” available within each field, such as per the illustration below: <ul style="list-style-type: none"> <li>For field “Type of Civil package” (Field F501): <ul style="list-style-type: none"> <li>1structure</li> <li>Two civil works</li> <li>Three facades</li> <li>Four external developments</li> <li>Five softscape &amp; so on</li> </ul> </li> </ul>	AV605
Assigning simple “choice code such as:	AV606

A01, A02, A03, A04 & A05 and so on to accommodate several choices.	
Designing & populating the contents of the configuration table for this function, as per annex 24E & having columns as proposed below: a) Configuration Table's name (i.e. purpose /field) & Number b) Field name c) Field code d)Choice description within the field e) Choice code f) Field value as applicable	AV607
And so on activities can be expanded up to 50	AV608 to AV650
<b>Activities for "Developing Configuration Tables"</b>	
<b>Function: Designing of Interiors, Process code: SV78</b>	
<b>List of Activities</b>	<b>Proposed Code</b>
Identifying key "Configuration Tables" relevant for this function. The author has identified one configuration table.	AV651
Assigning a unique "table number" as CT221 for the identified table. The number of configuration tables can be increased to 10 from CT221 to CT230.	AV652
Identifying fields are applicable to each of the above tables. One example of a field is as below: <ul style="list-style-type: none"> <li>● Type of packages in Interior design works</li> </ul>	AV653
Identifying "Field code": F531 for Type of packages in Interior design works	AV654
Identifying various "choices" available within each field, such as per the illustration below: <ul style="list-style-type: none"> <li>● Type of packages in Interior design works (Field F531): <ol style="list-style-type: none"> <li>1. Finishing</li> <li>2. Furnishing &amp; fixtures</li> <li>3. Interior design equipment</li> <li>4. Artwork etc</li> </ol> </li> </ul> & so on	AV655
Assigning simple "choice code such as: B01, B02, B03 & B04 and so on to accommodate several choices.	AV656
Populating the contents of the configuration table, similar to activity at AV607	AV657

And so on activities can be expanded up to 50	AV658 to AV700
<b>4. Function: Designing of MEP Services functions</b>	
<b>Configuration Table's development related Process: SV79</b>	
<b>List of Activities</b>	<b>Proposed Code</b>
Identifying key "Configuration Tables" relevant for this function. The author has identified one configuration table.	AV701
Assigning unique "table number" as CT231 for identified. The number of configuration tables can be increased to 10 from CT231 to CT240.	AV702
Identifying fields are applicable to each of the above tables. One example of a field is as below: Type of packages in MEP works	AV703
Identifying "Field code": F556 for Type of packages in MEP works	AV704
Identifying various "choices" available within each field, such as per the illustration below: Type of packages in MEP works (Field F556): <ul style="list-style-type: none"> <li>● External electricals</li> <li>● Internal electricals</li> <li>● Airconditioning</li> <li>● Plumbing etc</li> </ul> & so on	AV705
Assigning simple "choice code such as: C01, C02, C03, C04 and so on to accommodate several choices.	AV706
Populating the contents of the configuration table, similar to activity at AV607	AV707
And so on activities can be expanded up to 50	AV708 toAV750

Summary of a coding scheme for business activities- Developing Configuration table.

Key function's name	Proposed Process codes	No business activities were identified for developing configuration tables	Business Activities in develop process @7 per process	No of business activities expandable for developing configuration tables	Code expandable @ 50/per function	Configuration tables applicable & numbers Annex 24 E	No of the field choices from annex 24E
2. Designing Architecture	SV77	7	AV601-AV607	50	AV601-AV650	CT210-CT220 @10	5
3. Designing of Interiors	SV78	7	AV651-AV657	50	AV651-AV700	CT221-CT230 @10	4
4. Designing MEP services	SV79	7	AV701-AV707	50	AV701-AV750	CT231-CT240 @10	10
All three functions	3	21	As above	150	As above	30	19

Note: Annex numbers Annex 1A,1B,1C,1F &1G for Fields, Annex 24E are part of the **handbook in Ethics -Volume 1**. The codes prior to AV601 and beyond AV650 are reserved for other functions
